Drawing & General Arrangement

ARTEMIS-39

A new line of fast yachts.

This innovative and stylish line boasts motor yachts ranging in size from 39 to 86 feet. The very first in the Artemis line of motor yachts, designed by Andrei Rochian, features an open interior layout with two staterooms: a forward queen sized berth and a mid-ship double berth cabin. Both of the staterooms have their own access to the heads, and there is significant room for a comfortable salon that is accessed from the cockpit by a sliding glass door. The Artemis 39 is built to the high standard of any other Selene Yachts. With its Twin Mercury engine, the Artemis 39 takes you in the fast lane and the boat comes standard with a Whisperpower 6Kw. generator with a sound-shield, muffler and remote start switch panel located at the helm.
