

*Vision 450*

*The Vision 450 is a modern innovative design that optimises the use of space and volume to create a stylish yacht that appeals to the blue water sailor, charter industry and avid sailing family. Comfort, styling and the ergonomics of the entire yacht were carefully studied to provide a pleasant environment for the whole family.*

*Clean uncluttered decks makes entertaining, sun tanning or storage of water toys possible. Its wide transoms make boarding easy and a great place to kit up for scuba diving or for kids to play. The wide hulls gives the yacht good stability and load carrying capacity. Great importance has been given to be able to sail the yacht with limited crew.*

*Upon entering the yacht one is immediately aware of the spaciousness and high head room throughout. Circulating between the generous cockpit, saloon and galley is free & easy. The large saloon windows provide a 360° view. All cabins are large and comfortable with en-suite bathrooms and separate shower cubicles. For privacy none of the cabins butt onto one another.*

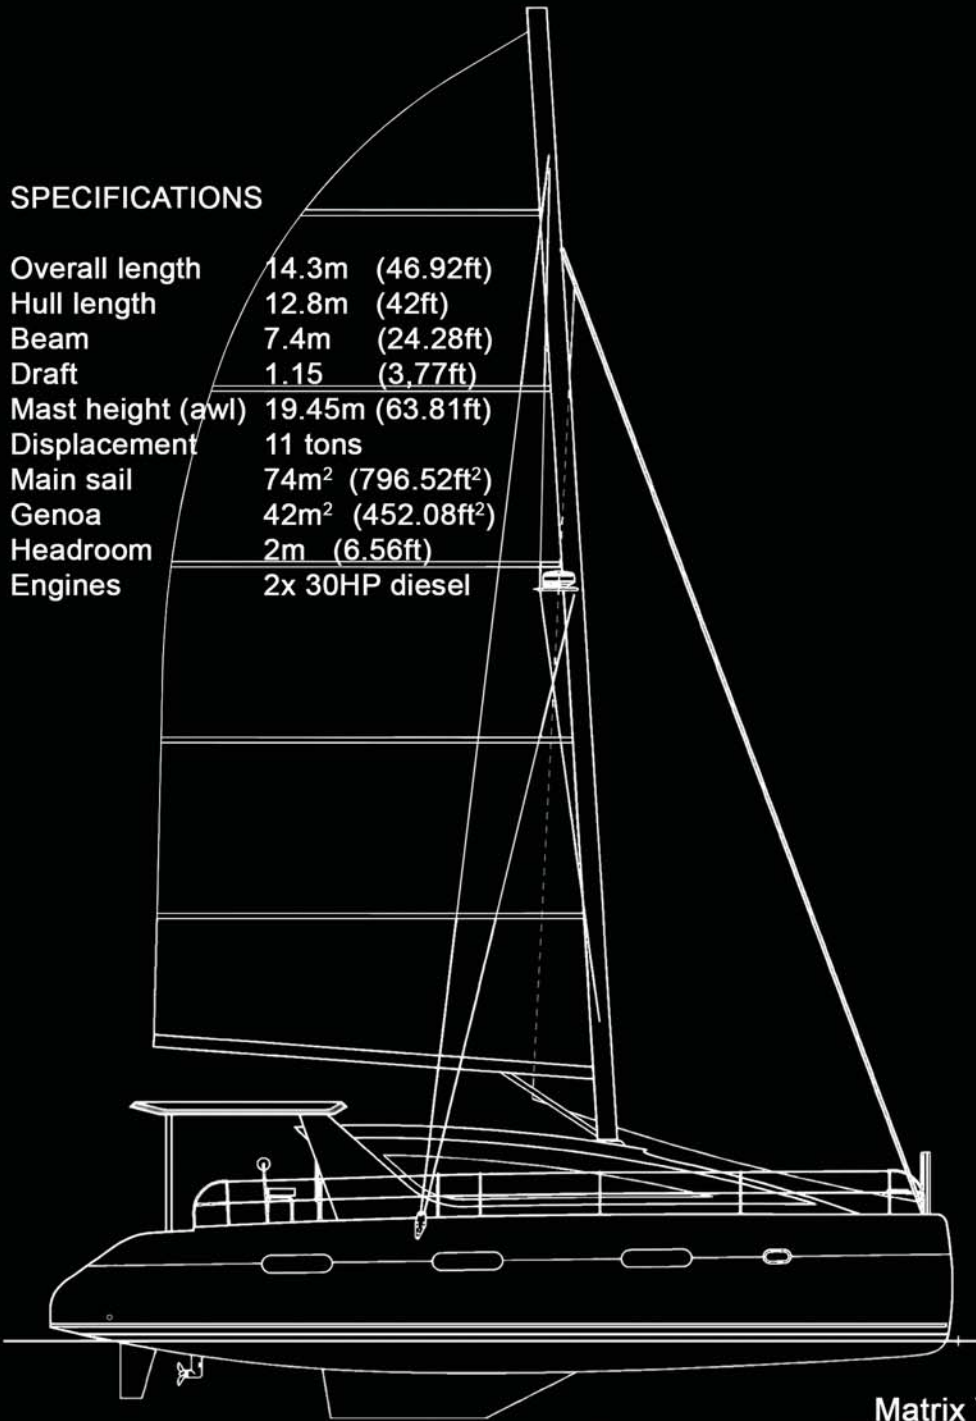

*Latest generation catamaran*
