

Nauticat 441 For Sale

Nauticat 441 Details

This is a rare model Nauticat 44' boat in excellent condition, ready to cruise. The Nauticat combines a cruising sailboat with the power and inside helm of a trawler. Perfect boat for cruising areas with irregular winds or for long down wind passages. Were most cruising sailboats motor over half the time, this one was built to go under power and exceptionally quiet. When the winds are favorable her long full keel and ample sail area make for a great sail. Full electric furling, lines led aft, secure side decks and two helm stations all make for safe, comfortable cruising. Full displacement, soundly built by Swedish masters, this boat is ready to cruise anywhere.
