4-person Zodiac dingy w/paddles/detractable wheels/cover plus 9.8hp Tohatsu outboard

Multiple spares/hardware/supplies

The Prout Snowgoose 37 has a great reputation as a solid capable world cruiser and is perfectly setup to allow single or short handed cruising. Although getting a bit long in the tooth, these yachts are still to be found anchored up in some of the best cruising grounds around. There is no less expensive way to get into a blue water cruising catamaran that a new owner could leave tomorrow in total safety. This yacht was built in 1993 and launched in Hong Kong and has been lovingly brought up to her present condition by her last two owners.

The "family layout" version features a massive queen size berth forward of the saloon and two large doubles in the aft cabins. If you need to fit more, then the saloon also converts to a double. A huge bathroom that would not look out of place

in an apartment takes up the forward sections of the port hull. There is so much storage space on this yacht you'll be amazed. She has recent upgrades to electronics, canvas work, painting, engine, battery management etc and her owner has decided to trade up so she's seriously for sale.
